THE LAB COMPANY:

The Lab Company is a pre-professional training ground for actors who get to spend their summer in Ithaca practicing their craft. We offer four professional acting experiences throughout the summer with roles in our **TYA Kiddstuff Season**, **Hangar Pilot Reading Series**, 2nd stage developmental **Wedge Second Stage Season**, and finally our **Mainstage Season**. Additionally as an ensemble, you work all summer under the direct leadership of our Drama League Directors - a semi professional directing program which serves directors from across the country. You'll also take various master classes. This year marks the first year that we are offering the lab company at no cost to the actor. You'll only need to provide your own housing in Ithaca (which our Company Manager will help arrange) Housing will cost approximately \$950 for the summer. The Lab Company runs June 1st - August 11th.
